This December 2005 column **ShoppingBots and Online Shopping 2006** is a comprehensive list of shopping resources and sites on the Internet. I have been writing about and listing various shoppingbots and online shopping resources and tools to be used on the Internet since 1995 and this continues my tradition. The below list of sources is taken from my current Subject Tracer™ Information Blog titled **ShoppingBots** and is constantly updated with Subject Tracer™ bots at the following URL:

<http://www.ShoppingBots.info/>

These resources and sources will help you to discover the many pathways available to you through the Internet to shop til you drop!

## **Notes and Suggestion for Virtual Shopping**

As you use the above referenced resources you **MUST** be very vigilant and keep in mind the following risk management tools to help you obtain a successful shopping experience:

- 1)** Send an eMail to the shopping site prior to purchase requesting a copy of their “Customer Satisfaction Policy”. Allow up to 24 hours for response and if company response is slow or cannot be cautious. If company takes longer than 24 hours to respond purchase elsewhere!
  
- 2)** Look for contact information on the home page. Company **MUST** have the following listed: phone number, complete address including zip code and an eMail address to resolve any product or service issues.
  
- 3)** Pay by credit card thus allowing you the problem solving resources of the credit card company should any problems arise. Some will halt the payment until your questions are answered.
  
- 4)** Save and print all your online receipts. Also save all receipts and packaging physically received in case you need to return the purchase. Save all correspondence that is generated for the purchase as well.
  
- 5)** Return the merchandise promptly and within return policy period if problems have not been resolved. State that “communications were unsatisfactory” for the reason you are returning the merchandise.

By using the above risk management tools and allowing time to either browse through the many virtual malls or using one of the many ShoppingBots you will have a very successful and rewarding Internet shopping experience. I would also make it a requirement that your Internet browser software have the 128-bit Encryption security protocol. .... the very safest available! Now go shop with your Bot until You Drop!!

## **Subject Tracer™ Information Blogs**

Subject Tracer™ Information Blogs created and developed by the Virtual Private Library™ combine the best of the latest tools on the Internet. Using bots, blogs and news aggregators the Subject Tracer™ Information blogs generate RSS feeds with the latest resources to create a current information resource flow through niched subject tracers. I am proud to be the creator of the Internet's first Subject Tracer™ Information Blogs:
